

Greetings from NRSI South Zone!!!

Nursing Research Society – India South zone is privileged to announce the Regional conference on 1st and 2nd May 2019 at Aster MIMS Hospital, Calicut. Participating institutions are MIMS College of Nursing, Puthukode, Malappuram, JDT Islam College of Nursing, Calicut and West Fort College of Nursing Thrissur.

We cordially welcome all the eminent researchers, faculty, students and delegates to take part in this upcoming nursing research conference, to witness invaluable scientific discussions and contribute to the future innovations in the field of nursing and its allied areas. The organizers believes that research oriented education in nursing is essential in the training of clinicians and academicians. Nursing Research Society's conference (South Region) will boost this thought which will provide the future leadership in this key area for global health.

Scope and Importance of NRSI Regional conference

Nursing encompasses a range of disciplines, techniques, procedures, and skills that share a common basis with other specialties, but are modified and adapted to the unique requirements of infants, children, adolescents, and those with special health care needs.

By being an age-specific specialty, nursing encompasses disciplines such as behaviour guidance, care of the medically and developmentally compromised and disabled patient, supervision of health problem and development, disease prevention and health promotion along with pharmacological management. These skills are applied to the needs of patients throughout their ever-changing stages of development and to treat diseases unique to growing individuals.

Since Nursing is vast with many specialties and sub specialties, researchers from all domains of nursing are invited to be part of this conference.

Theme: Innovations, Future Challenges: Exploring new horizons in Nursing Research

This Conference will provide a perfect platform addressing:

- ✍ Commendable talks by the first-string of the nursing scientific community.
- ✍ Sterling workshop sessions.
- ✍ Networking with Nurse Researchers from South India
- ✍ Exquisite platform for presenting and exhibiting your research in terms of papers and posters

Why to attend?

We would like to enlighten the younger professionals on the importance of nursing research in their respective specialty to improve practice, education, professionalism and career improvement. We will look to create fascinating gathering of nursing & healthcare professional from in and around South India to discuss and confer on their latest research.

Aim

Conference will focus on advanced research, directed towards its impact on clinical outcome through influential plenary sessions, sterling workshop, and poster and paper presentations. It is aimed at bringing together the experts to advance scientific knowledge about nursing research.

Objectives

- + To learn basics of conducting high quality research from experts
- + To foster a culture of inquiry through sharing (dissemination) of research.
- + To enhance knowledge of methodological issues in nursing research.

Target Audience

Nurse Researchers, Faculty, Clinical Nurses, Postgraduate students and Academicians
